Handmade car seat covers made of leatherette.

An affordable and elegant choice that protects and upgrades the interior of your vehicle. We use new formulae soft leatherette that looks like real leather but is less penetrative, more durable and repels water and sweat. They offer full coverage of the front and rear parts of the car seats that wear more easily. They are also side airbag compatible.

The covers are easy to install within a few minutes for a perfect aesthetic result, with the AUTOCOVER guarantee!
